 - Web Technologies: HTML5, CSS3, React.js, Next.js, Tailwind CSS, Framer-Motion, ShadCN
 - Tools & Platforms: Git/GitHub
-

Professional Experience

Smart India Hackathon (2024)

Role: Team Member.

In the Smart India Hackathon, went through the internal hackathon round and participated. Came up with an idea and worked on developing a solution to address the problem in real life. Worked in a team made up of active participants as members and experienced the process of thinking in a stressful situation and doing all the work on time.

Projects

Portfolio | 

A modern and dynamic portfolio website crafted with Next.js and Tailwind CSS. Enhanced with fluid animations using Framer Motion and polished UI components from Aceternity UI. Features a seamless contact system powered by Email JS for professional communication.

The UnCoders | 

The UnCoders: A platform dedicated to supporting IT students at UIET Chandigarh, Panjab University, by providing free and accessible study resources, including lectures, notes, and previous year question papers. Designed to simplify learning and exam preparation, The UnCoders ensures students can focus on academics without resource constraints.

Performed comprehensive UI/UX testing to enhance the overall user experience, focusing on identifying and addressing design inconsistencies. Tested and validated the functionality of backend admin interfaces, review panels, and bug tracking systems to ensure seamless performance and operational efficiency.
